

Vijendra Chouhan

Full Stack Web Developer

PROFESSIONAL SUMMARY

"Highly motivated Full Stack Developer with expertise in HTML, CSS, JavaScript, React, Node.js, Express.js, and MongoDB. A quick learner and disciplined professional, I bring a proactive approach to problem-solving. Eager to contribute to innovative projects while continuously expanding technical expertise and embracing new challenges."

PROJECTS

1. Shine | |

HTML5 | CSS | React | JS

- Developed an online job application platform that facilitates job browsing and helps users find the best job opportunities.
- Implemented key features such as user authentication, registration, a slider for enhanced user experience, and ensured responsiveness across devices.
- Utilized a tech stack comprising HTML5, CSS3, React, and Git for version control.
- Completed the entire project individually within a timeframe of 8 days.

2. Snapdeal | |

HTML | css | js | react | node.js | express.js | mongodb

- Developed a clone of Snapdeal, an online shopping application, from scratch within 8 days.
- Implemented features including slider functionality, product browsing, cart management, and seamless payment integration using Razorpay.
- Utilized HTML5, CSS3 for front-end development, and React for building dynamic user interfaces.
- Employed Node.js and Express.js for backend development, with MongoDB as the database.
- Demonstrated proficiency in version control using GIT.
