Redux | Git | Node.js | Express.js |
MongoDB | RESTful APIs |
Responsive Web Design | Typescript |
Tailwind css | Python | DSA

SOFT SKILLS

Teamwork | Time Management |
Attention to Detail | Problem Solving

Vijendra Chouhan

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer proficient in JavaScript and the MERN stack, with strong problem-solving abilities and a proactive mindset. Highly skilled in designing efficient server-side APIs and frontend components using React and Node.js. Quick to learn new technologies, including Generative AI, enhancing development processes rapidly.

WORK EXPERIENCE

Cleankoding

Frontend-developer
May 2024 - October 2024

Job responsibilities:

- Developed and maintained a Chrome extension for Gmail featuring task management and reminders, enhancing user productivity.
- Implemented user interfaces and integrated functionalities using React and TypeScript, ensuring high performance and scalability.
- Collaborated with cross-functional teams to ensure seamless integration and functionality of features, aligning with the project goals.

PROJECTS

1. DevSync | 🌐 | 🗄️

HTML5 | JavaScript | React | Node.js | Express.js | MongoDB |
RESTful APIs | Responsive Web Design | Git | Tailwind CSS

- Built using the MERN stack with an emphasis on scalability and performance.
- Implemented user authentication features, ensuring secure data handling and storage.
- Collaboratively worked on enhancing the code editor with real-time syntax highlighting and multi-language support.
- Integrated RESTful APIs for efficient data management and communication between client and server.

2. Snapdeal | 🌐 | 🗄️

HTML5 | CSS3 | JavaScript | React | Git | Node.js | Express.js | MongoDB |
Responsive Web Design

- Developed a full-stack clone of an online shopping platform using the MERN stack.
- Handled backend development with Node.js and Express.js for robust server-side operations.
- Executed payment integrations and ensured smooth user transactions using Razorpay.
- Enhanced frontend interaction through React.js, providing dynamic and seamless user browsing.
- Engaged in thorough debugging and testing to maintain application stability and reliability.
