React | Redux | Git | Node.js |
Express.js | MongoDB |
RESTful APIs |
Responsive Web Design |
Typescript | Tailwind css |
Python | DSA

SOFT SKILLS

Problem Solving |
Attention to Detail |
Time Management | Teamwork

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer skilled in JavaScript, MERN stack, and RESTful API design. Expertise in React.js and Node.js ensures the creation of scalable web applications. Excels in collaboration and problem-solving, with the capability to leverage Generative AI and quickly learn new technologies.

WORK EXPERIENCE

Cleankoding
Frontend-developer
May 2024 – October 2024
Job responsibilities:
- Developed and maintained a Chrome extension for Gmail, incorporating task management and reminders.
- Implemented seamless user interfaces and integrated key functionalities using React and TypeScript, ensuring high performance and scalability.
- Collaborated with cross-functional teams to align project features with goals, ensuring smooth integration and functionality.

PROJECTS

1. DevSync | ⊕ | ⊛
HTML5 | JavaScript | React | Node.js | Express.js | MongoDB | RESTful APIs | Responsive Web Design | Git | Tailwind CSS
- Developed a full-stack code editor using the MERN stack, emphasizing a smooth, customizable editing experience.
- Implemented user authentication workflows using MongoDB and Express.js, ensuring secure data handling for login and signup.
- Constructed a fully responsive design with Tailwind CSS, ensuring adaptability across diverse devices and screen sizes.

2. Snapdeal | ⊕ | ⊛
HTML5 | CSS3 | JavaScript | React | Git | Node.js | Express.js | MongoDB | Responsive Web Design
- Integrated backend services with Node.js and Express.js for seamless payment processes via Razorpay, demonstrating end-to-end development skills.
- Utilized MongoDB for effective data management, ensuring dynamic interactions between the application components.
